- **Question:** What type of cabling solution do you want? Cat 5e, Cat 6 or Cat 6a?

  Answer: <mark>Our Preference is Cat 6 cables or better.</mark>

- **Question:** The Wireless LAN Controller you are requesting on your RFP (Cisco 5520) will go End Of Sale on Jan 31, 2022. I wanted to let you know in case you want to change it to the new Controller Model.

  If you do want to change to the newer model the following information will be needed:

  How many existing Access Points do you have on your existing controller?

  What model of Access Points are they?

  Answer: <mark>The Answer to the end of sale is in the RFP project 2. We have a Cisco 5520 at our High School and the rest of the controllers are Cisco 5508. On the 5520 we have a mixture of 122 AIR-CAP2602I, AIR-CAP2702I and AIR-AP3802E (This is the WLC we want to add many of the access point). With our 5508 we have AIR-CAP2602I and what we need is in the RFP.</mark>

Any Questions about the RFP please refer them to ERate@laferiasd.org.

All responses will be posted with an addendum.
